

BREWER BRIDES

BY KERRY EVELYN

Contemporary sweet small-town wedding romance

In this charming old western town, residents have been following their dreams for more than a century. In 1888, the Palmer and the Brewer families settled the land, dividing what would become a prosperous mining town into two equal parts. The details were decided by card games, and when the chips settled, the Brewers owned the land west of Snowpack Creek, and the Palmers had control of everything east to the Colorado Springs border, as well as naming rights. With the addition of the arena, an all-in-one-stop sportsplex popped up on the west side, providing a place for professional athletes and townies alike to learn and play. Local businesses along the creek are owned by the kindest and quirkiest residents this side of the Colorado River. Rock on a swinging creekside bench or stroll along Restaurant Row to the town park, a magical place to find love and solace in all the seasons. Everything is light and peaceful here in Palmer City ... mostly.

READERS' FAVORITE 5-STAR REVIEW AWARD

Kerry Evelyn pulls readers into Keegan's life as they wait to hear about the heartbreak that crushed him, and they stay for the sweet romance they hope succeeds between Keegan and Astoria. Readers will learn about Palmer City until they are part of the community, befriending hockey players and Olympic contenders and feeling grounded in the layered history. They also get to see budding relationships or secret crushes from Keegan's and Astoria's alternating perspectives. As Keegan tutors Astoria in the beer-making process, the author gives a lot of advice on brewing beer and offers more than a few tricks about flavoring beverages. *One Margarita* is a great selection for readers who enjoy small-town stories and romance with the hijinks of a cute kitten thrown in for good measure."
